

REMARKS

In the Advisory Action mailed February 8, 2005, the Examiner rejected claims 47-60, 62-67, 69-72 and 75. By this amendment, Applicants have canceled claims 47-55 to place the present application in better condition for Appeal.

Information Disclosure Statement

Applicants file herewith a supplemental information disclosure statement and request that the Examiner provide Applicants with an indication of consideration of the references provided in the statement.

Previous Arguments

Applicants have advanced several arguments in previous Responses filed for the present application. Each of these arguments is incorporated herein by reference.

Additional Arguments

The Advisory Action suggested that the rejection of claims 60 and 67 under 35 USC 112 has been overcome. However, Applicants contend that none of the previous Office Actions issued by the USPTO have addressed the merits as to patentability of these claims. As such, Applicants contend that neither a prima facie case of anticipation or obviousness has been established against claims 60 and 67.

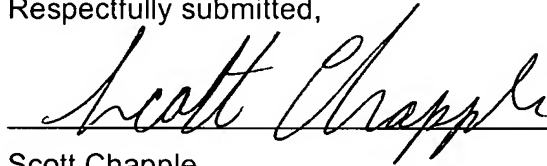

CONCLUSIONS

Applicants submit that the present application is in condition for allowance and request that the Examiner pass the case to issue at the earliest convenience. Should the Examiner have any question or wish to further discuss this application, Applicant requests that the Examiner contact the undersigned at (248) 292-2920.

If for some reason Applicant has not requested a sufficient extension and/or have not paid a sufficient fee for this response and/or for the extension necessary to prevent the abandonment of this application, please consider this as a request for an extension for the required time period and/or authorization to charge our Deposit Account No. 50-1097 for any fee which may be due.

Dated: 31 March, 2005
